                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        Multidrug resistance protein 2 - mouse
NiAlternate names: P-glycoprotein MDR2
C;Species: Mus musculus (fouse mouse)
C;Accession: A30409; S7011
R;Gross, P.: Raymond, M.; Bell, J.; Housman, D.
R;Gros, P.: Raymond, M.; Bell, J.; Housman, D.
Mol. Cell. Biol. 8, 2770-2778, 1988
A;Title: Gloining and characterization of a second member of the mouse mdr gene family.
A;Reference number: A30409; MUID:88302195
A;Accession: A30409; MUID:88302195
A;Molecule type: mRNA
A;Residues: 1-1276 <-KBU>
A;Residues: A30409; MID:913253
A;Residues: Davo generation of simple sequence during gene amplification.
A;Reference number: S70711; MUID:96313253

No. is the number of results predicted by chance to have a
score greater than or equal to the score of the result being printed,
and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     Sequence 11, p
